

Freight Bill  
Pre-Audit Services

*Because  
time is money.*

TRAFFIC SERVICE BUREAU, INC.

TSB saves you time – and money.

**T**SB pre-audit services give you and your staff more time to do what you do best - run your company. Since 1920, Traffic Service Bureau has been a leader in freight bill auditing, helping companies like yours save or recover over \$80,000,000 in transportation charges.

The most expensive cost of manufacturing products, next to materials and labor, is shipping. And with the wide range of transportation services available, along with the effects of deregulation on the shipping industry, overcharges are inevitable.

Finding those overcharges and ensuring that our clients receive proper refunds has helped Traffic Service Bureau, Inc. to grow and prosper along with our clients, fulfilling our role as an important partner in their transportation departments.

TSB pre-audit services are comprehensive, thorough and efficient.

**W**e provide a turn-key solution for companies who need professional, experienced traffic program management but may not have the staff, resources or capabilities in-house.

Our experienced rate analysts check every freight bill for accuracy in rates, discounts, classifications, routings, and extensions. We pay the correct amount the first time, every time...so you aren't left waiting to recover improper freight charges. TSB has expertise in all modes of transportation including truck, rail,

steamship, airline, intermodal, contract carrier, air freight forwarder, TOFC, NVOCC and, of course, international. We offer prompt processing, detailed documentation and thorough reporting, freeing your staff to concentrate time and energy on core competencies.

We'll customize traffic program reporting to your specifications.

*T*SB recognizes that not all companies are the same when it comes to traffic management – and companies need options for reporting.

Our pre-audit package includes standard reports which can be adjusted to your liking. Our Batch Report lists, by carrier, all freight bills within a given batch and each batch includes all relevant documents, including

detailed correction slips. The Activity Report is a simple yet comprehensive payment history. And depending upon your particular needs, TSB will provide additional management reports, customized to your specifications.

TSB provides the benefits of over 80 years' experience.

*T*SB can provide traffic management services to fit your particular requirements and expectations. Our payment features include data entry and archiving, bill of lading and delivery receipt verification, duplicate payment protection and more.

TSB's extensive data validation virtually eliminates data entry errors and improves overall reliability. All freight bill pre-audit corrections are fully documented, and correction notices provide complete details for you and the carrier. Freight bills are processed on schedule and, pending

receipt of funds to our Freight Payment Account, are paid the next business day. Funds are maintained in a secured bank trust account, and our payment service includes a comprehensive Fidelity Bond, maintained for your protection. Finally, we guarantee the complete confidentiality of your account.

Start saving time – and money – today.

*C*all Traffic Service Bureau and find out how your company can benefit from our comprehensive transportation pre-audit services.

You can reach us at 717-944-4618. You'll speak directly with a senior staff member who can explain in detail how we work with clients and what you can expect. Traffic Service Bureau – because today, more than ever, time is money.
